Agar aap ko Discord ka idea nahi hai, toh main wazeh kar doon ke Discord ek bohot hi professional business platform hai. Yahan bari-bari companies aur professional departments shifted hain, jin ke bade Channels aur Groups par hazaron nahi balkey lakhon job holders add hain. Hamara system bhi bilkul aisa hi hai.

Agar aap ke zehan mein aata hai ke WhatsApp par yeh kaam kyun nahi ho sakta, toh main batata chaloon ke WhatsApp heavy business operations ke liye design hi nahi hua. WhatsApp bade departments aur un ke heavy workload ko handle nahi kar sakta aur us ka server/account ban ho jata hai.
